the workshop.

Parking: Onsite

This presentation is designed to provide information to parents, caregivers and community providers about the programs offered by TVCC Autism Services; such as, parent education sessions, ABA-based services and supports for children and youth with ASD, social work services, Intensive Behaviour Intervention (IBI), and Connections for Students.

We explain why we use Applied Behaviour Analysis (ABA) when working with families, and why active parent/caregiver involvement is an essential component of all of our programs.
